

Claim listing**claims 1-40 (cancelled)**

41. (new) A method for aiding a person seeking to attract attention at socially interactive events comprising:

(a) providing said person seeking to attract attention at socially interactive events with a flexible frameless eye patch with an aperture therein for enabling said person to see through the aperture, and having a first adhesive layer on a first side of said flexible frameless eye patch for affixing said flexible frameless eye patch to said person's face to maintain said eye patch in place during vigorous social activity and having a second adhesive layer opposite said first layer on a second side of said flexible frameless eye patch adjacent said aperture for supporting an optical element upon said flexible frameless eye patch;

(b) placing attention getting indicia, that is not a trademark or logo, upon the second side of said flexible frameless eye patch; and

(c) mounting an optical element over said aperture and upon the second side of said flexible frameless eye patch.

42. (new) The method of claim 41 wherein said optical element is an outdated old corrective eyeglass lens, for creating a new use of an old otherwise discarded corrective eyeglass lens.
